JADE

Children dream big and they love going adventures in their imaginary worlds. In these dreams, they could be an astronaut, a doctor, an explorer, a baker or a truck driver. Anything but a mathematician. Actually, they don't need to be one as they are natural born problem solvers. Kids explore the world we live in by constantly challenging it because every new thing they see is a new problem to be solved and their biggest tool is their intelligence which is always hungry for an answer.

Well, Jade is one of them. A little girl with big imagination. She is smart, cute, kind, and curios. She loves going to adventures with her friends Mat-Mats, a bug-like, cute creatures in their colourful world. Mat Mats are usually clumsy and clueless on almost any situation and they get themselves into troubles where Jade always solves problem and saves the day.
